PRODUCT CATALOGUE

Spaces for play, movement and everyday life.

Illustrative park scene.

A brighter world through play.

About Us - Our Mission - Our Vision

The right equipment starts with understanding your space and how it will be used.

Illustrative park scene.

ABOUT US

As part of TÜM GROUP, Keyif Park supplies and installs playground equipment and outdoor furniture. We consider the needs of each space, the character of the equipment and how it will be used. Our Istanbul sales office supports you with product selection and installation requirements.

OUR MISSION

Help create spaces where children can grow through play and people can come together outdoors, combining thoughtful product selection with good design, practical function, clear information and attentive service.

OUR VISION

To become a distinctive brand of choice in Türkiye and international markets, bringing play and outdoor life together through considered design, reliable product information and professional service.

SERIES

Rubber Tiles

Interlocking Rubber Tiles

EPDM Rubber Surfacing

SBR Rubber Surfacing

Acrylic Sports Surfacing

Polyurethane Surfacing

Rubber Tiles

Give your play space colour and character.

Illustration of the product and a possible application.

Dimensions and Installation

Width	Length	Thickness
500 mm	500 mm	20 / 25 / 30 / 40 mm
400 mm	400 mm	20 / 25 / 30 / 40 mm

Colours: Green / Red / Black

Ask About Your Project

Applications

- **Children’s playgrounds**
- **School and nursery grounds**
- **Communal residential areas**
- **Outdoor exercise areas**
- **Sports halls**
- **Park paths and rest areas**
- **Pedestrian areas at senior living facilities**
- **Play areas at campsites and holiday resorts**

Choose a product suited to the space and equipment. Weight-training areas require purpose-designed rubber tiles.

Interlocking Rubber Tiles

Surfacing solutions that work together.

Illustration of the product and a possible application.

Dimensions and Installation

Width	Length	Thickness
200 mm	250 mm	20 / 25 / 30 / 40 mm

Colours: Green / Red / Black

Ask About Your Project

Applications

- **Park and garden paths**
- **Walkways at hospitality venues**
- **Around exercise trails**
- **Around outdoor play areas**
- **Walkways in nursery grounds**
- **Walkways at senior living facilities**
- **Accessible pedestrian routes**

Plan the substrate, drainage and edge details together. Joints and surface levels must support accessible use.

EPDM Rubber Surfacing

Let colour lead the way.

Illustration of the product and a possible application.

Dimensions and Installation

Option	SBR Base	EPDM Top	Total
8 + 5	8 mm	5 mm	13 mm
8 + 7	8 mm	7 mm	15 mm
13 + 7	13 mm	7 mm	20 mm
23 + 7	23 mm	7 mm	30 mm

Ask About Your Project

Applications

- **Children’s play areas**
- **School playground zones**
- **Nursery and preschool grounds**
- **Parks and recreation areas**
- **Walking and activity routes**
- **Outdoor exercise areas**
- **Hotel children’s clubs**
- **Water play areas and pool surrounds**

Choose the system for the intended use. Wet areas require a specialist system with documented suitability.

SBR Rubber Surfacing

The right surface for every move.

Illustration of the product and a possible application.

Dimensions and Installation

Thickness, colour and layer construction are specified to suit the substrate and intended use.

Ask About Your Project

Applications

- **Resilient base layer beneath EPDM**
- **Base layers for running paths and tracks**
- **Base layers beneath sports hall flooring**
- **Resilient layers beneath artificial turf**
- **Exercise and recreation areas**
- **Indoor sports areas**

SBR can be used as a base layer or, in a suitable product form, as a finished surface. Exposed outdoor areas and sports halls require the appropriate product form.

Acrylic Sports Surfacing

Set the scene for sport.

Illustration of the product and a possible application.

Dimensions and Installation

Thickness, colour and layer construction are specified to suit the substrate and intended use.

Ask About Your Project

Applications

Tennis courts	**Basketball courts**	**Volleyball and multi-use courts**	**Pickleball courts**
School play and sports zones	**Residential and hotel sports courts**	**Cycle paths**	**Roller hockey courts**

Select a surface suited to the sport. Acrylic surfacing is not a substitute for impact-attenuating playground surfacing. Cycle and roller hockey areas require specialist systems.

Polyurethane Surfacing

Make space for movement.

Illustration of the product and a possible application.

Dimensions and Installation

Thickness, colour and layer construction are specified to suit the substrate and intended use.

Ask About Your Project

Applications

- **Indoor basketball, volleyball and handball courts**
- **School sports halls**
- **University training areas**
- **Indoor tennis and badminton courts**
- **Group exercise studios**
- **Dance and ballet studios**
- **Movement and activity rooms**
- **Outdoor sports courts**

Choose a system suited to the sport or activity. Outdoor use requires a system designed for sunlight and weather exposure.

Let’s talk about your project.

Contact us for help with product selection, sales and installation.
